MORE TROOPS ARE SENT

Two Companies of 19th Infantry on Way to Eagle Pass.

(Special to The Herald).
San Antonio, April 20.—Major General Funston continues to send troops to the border without awaiting the arrival of Gen. Scott, the army's chief of staff. Two companies of the 19th Infantry, which departed last night, left early today for Eagle Pass, to relieve the force which has been ordered to Columbus. General Scott is expected to arrive here Friday afternoon. He is expected to go later to El Paso and Columbus after conference with Gen. Funston.

CRISIS HAS BEEN AVERTED

There Will Be No Resignation From the English Cabinet.

(Special to The Herald).
London, April 20.—The recruiting crisis has been settled. It was announced on authority today. It was further stated that there would be no resignations from the cabinet.

STORM CAUSES GREAT DAMAGE

Eleven Killed, Scores Injured and Large Property Loss as Result of Electrical Disturbance Over Mississippi Valley

(Special to The Herald).
Chicago, April 20.—Eleven dead, scores injured and property damage, the toll of a general electrical storm which struck the Mississippi Valley last night. Six persons are reported dead at Stover, Mo., and dozens injured. A special train has left St. Louis, Mo., over the Rock Island railroad to give relief to the stricken city.

In Chicago a 13-mile gale swept the city, damaging buildings and tangling telephone and telegraph wires. One man was killed. He was struck by lightning as he lay in bed. Kansas reported three dead. A child was killed at Hich Hill, Mo., and several were injured when a miniature tornado swept through north central Iowa and southern Minnesota, injuring scores of persons and doing extensive property damage. At Briceville, Minnesota, seven persons were injured, some seriously.

POLICE NEWS.

George Cotnam, a sailor arrested late on Wednesday night on complaint of the proprietor of a lodging house, was booked for a hearing in the municipal court on a charge of drunkenness. He gave bail to the amount of \$25 on Wednesday night but forfeited that amount today in his failure to appear at the appointed hour, 10 o'clock.

Officer Murphy picked a straggler from the U. S. S. Washington today and later took him to the ship at the navy yard.

UNDERTAKERS' CONVENTION

The New Hampshire Licensed Embalmers and Undertakers Association will hold its second annual meeting at Manchester, June 25, 26 and 30.

RUSSIANS ARRIVE IN FRANCE

Will Fight Shoulder to Shoulder With the French and British.

(Special to The Herald).
Paris, April 20.—Russian troops will soon be on the firing line in France fighting shoulder to shoulder with the French and British soldiers against the Germans. A large army contingent of Russians has already arrived at Marseilles. This is taken here as evidence that the Allies believe the outcome of the war will be decided in the western theatre.

ARE REPORTED MURDERED

A Searching Party Organized to Secure Trace of Five Archaeologists.

(Special to The Herald).
Chattanooga, Tenn., April 20.—Rumors wholly unconfirmed were prevalent here today to the effect that five archaeologists sent out by the Academy of Science of Philadelphia to investigate Indian mounds along the Tennessee river had been murdered. Although not much credence has been placed in the rumor, a local attorney today organized a searching party.

HOPE BREAK WILL BE AVOIDED

It is Believed Leading German Officials Will Submit Submarine Statistics to Kaiser

(Special to The Herald).
Washington, April 20.—Despite the admitted gravity of the international situation so far as the United States and Germany are concerned, sources close to President Wilson today for the first time in a week expressed hopes that a diplomatic break with its consequent danger of war, yet will be avoided.

The Berlin foreign office, the President has been advised, it was learned, is utterly opposed to an open break. It is understood that the ambassador asked whether a duplication of the position taken in connection with Mediterranean shipping would satisfy this government, but that the secretary reiterated that there can be no discussion of any phase of the situation until Germany abandons her present methods.

more than offset by the loss of German submarines. Ambassador von Bernstorff conferred with Secretary Lansing at length today. While the primary subject of the conference was the arrest of Wolf von Igel, arrested in New York last Tuesday, and the ambassador's demand that not only von Igel be released, but all documents seized at that time be turned back as embassy documents, the general submarine situation was discussed. It is understood that the ambassador asked whether a duplication of the position taken in connection with Mediterranean shipping would satisfy this government, but that the secretary reiterated that there can be no discussion of any phase of the situation until Germany abandons her present methods.

FRENCH TAKE THE OFFENSIVE

Capture Two Hundred German Prisoners in the Verdun Region.

(Special to The Herald).
Paris, April 20.—French troops have taken the offensive on the east bank of the Meuse in the second battle of the Verdun. A French attack was carried out successfully last night in which the assaulting force captured a "redoubt" and some trenches which the Germans had constructed after their advance against the northeast front of Verdun. Two hundred German prisoners were taken by the French. Three artillery pieces on the Meuse continued to bombard the night during which the Germans lost heavily. It was estimated today that in the conflict of the last week 55,000 French soldiers have fallen. In the blood-drenched soil near the Meuse.

ARE BLOWN TO PIECES

Two Lumbermen Killed While Breaking Up Ice.

(Special to The Herald).
Houston, Tex., April 20.—Forrest Berry, aged 27, and Edmund Breda, aged 28, both residents of North Houston, were blown to pieces by an explosion of half a box of dynamite on Beaver Brook today while breaking up ice for a lumber drive.

CHASE FOR VILLA HALTED

U. S. Troops in Mexico Waiting for Washington to Act.

(Special to The Herald).
San Antonio, April 20.—Gen. Funston announced today that all efforts to capture Villa had been halted. He declared the entire plan of the campaign would have to be changed. "Gen. Pershing's expedition is at a standstill until the arrival of Gen. Scott," said Funston. "The whole plan of campaign must be changed. Our men will simply mark time unless attacked by Mexicans. The United States cavalry is now in a most desolate country. There is no grass and little fodder. Water is scarce. Gen. Pershing has fallen back from Saltillo. There are only a few small detachments south of Saltillo. The situation is now up to Washington. Without railroads a new base and more men, General Pershing can do no more."

The Herald contains both the latest foreign and local news.

HOLD A CONFERENCE

German Chancellor and Foreign Minister Talk Over U. S. Note.

(Special to The Herald).
Berlin, April 20.—Imperial Chancellor von Bethman-Hollweg and Foreign Minister von Jagow held a long conference today presumably on the note transmitted to the German government through Ambassador Gerard with reference to submarine warfare. It is understood that the Chancellor will leave Berlin Friday or Saturday for a conference with the Kaiser at army headquarters. Officials of the foreign office were unusually reticent today. None would comment in any way whatever on the submarine situation. Count von Bernstorff has notified the foreign office that he has sent to from Washington a long message concerning America's demand.

WARNING TO KAISER IS "QUIT OR BREAK"

President Wilson's Address to Congress Gives Complete Message to Germany--Says United States Will Break Relations Unless U-Boat Warfare is Stopped

Washington, April 19.—Sharply indicting Germany for its use of submarines against merchant vessels President Wilson in a joint session of congress issued today public notice to the world that unless the German Government changes its methods the U. S. will have no choice but to sever diplomatic relations. There was no questioning the seriousness of the President's position, his voice, somewhat husky, penetrated every corner of the room. That serious news was shared by the audience, the usual applause being absent. The message was in every sense an ultimatum. It had insisted that the submarine warfare had reached the stage where this government would no longer tolerate it. It was shortly after 1:00 o'clock that the President began his speech to the members of the two houses of Congress. After summarizing the diplomatic procedure with Germany over the submarine warfare President Wilson said, in part:

The Promises Germany Made
Notwithstanding the earnest protest of our Government, the Imperial German Government at once proceeded to carry out the policy it had announced. It expressed the hope that the danger involved at any rate the danger to neutral vessels, would be reduced to a minimum by the instructions which it had issued to its submarine commanders, and assured the Government of the United States that it would take every possible precaution both to respect the rights of neutrals and to safeguard the lives of non-combatants.

What has actually happened in the year which has since elapsed has shown that those promises were not justified. Those assurances (inadmissible by being fulfilled) in pursuance of the policy of submarine warfare against the commerce of its adversaries, thus emboldened and enlarged upon by the Imperial German Government in the face of the solemn protest of this Government, the commanders of German submarines have attacked merchant ships with greater and greater activity, not only upon the high seas but in the harbors of Great Britain and Ireland, wherever they could encounter them. In a way that has grown more and more ruthless, more and more indiscriminate, as the months have gone by, less and less observant of restraints of any kind, and have delivered their attacks without compunction against vessels of every nationality, and bound upon every sort of errand. Vessels of neutral ownership, even vessels of neutral ownership bound from neutral port to neutral port, have been destroyed along with vessels of belligerent ownership, in constantly increasing numbers.

Tragedy Has Followed Tragedy
Sometimes the merchantman attacked has been warned and allowed to surrender before being fired on, or torpedoed. Sometimes passengers or crews have been rescued, the poor security of being allowed to take to the ships' boats before they were sunk to the bottom. But again and again no warning has been given, no escape even to the ships' boats, allowed to those on board. What this Government foresees what happens has happened. Tragedy has followed tragedy on the seas in such fashion, with such appalling circumstances, as to make it grossly evident that warfare of such a sort

rights of mankind to take this stand now in the utmost solemnity and earnestness.

"I have taken it, and taken it with the confidence that it will meet with your approval and support. All sober minded men must unite that the German Government which has in other circumstances stood as the champion of all that we are now contending for in the interest of humanity, may recognize the justice of our demands and meet them in the spirit in which they are made."

BOWLING

On the West End Alleys last evening Captain George Chandler of the Hook and Ladder Company, P. D., was defeated in the final ten-strike match by Fireman Dennis Kelly, of Sagamore, number 1, company, losing by 59 pins. The captain, who is a favorite with the West End fans, was much disappointed at the result of the match as were also his friends who had backed on his coming through this match with the same credit and success as he had in the second game when he defeated Kelly. Captain Chandler had the lead for the first two strings only, being six pins ahead at the end of the second string. In his third string, rolled 108 against Chandler's 94, and from then on, until the end of the game, with the exception of the eighth, when Chandler rolled 110 against his 91. This match was the rubber game. In the three-game series, the summary:

Chandler—86, 95, 91, 57, 51, 84, 94, 110, 92, 91—905.
Kelly—79, 102, 106, 93, 91, 112, 101, 91, 103, 90—904.

Hanscom Wins Match in General Store League Handicap

The finals in the General Store League individual handicap matches were rolled on the Arcade Alleys last evening and the first prize, a gold watch, was won by Hanscom with a net score of 301 for his two strings. His handicap was 16 pins each string. Lewis took second place with a score of 299 and Dwyer was third with 263.

In the semi-finals, rolled earlier in the evening, Dwyer, with a 2 handicap defeated Fernald, 253 to 259. Hanscom defeated Fernald with a handicap of 16; score 253 to 276. Lewis with a handicap of 22 defeated Paul, 255 to 243.

No Equals Win From C. C. Co.

On the Arcade Alleys in the Commercial League the No Equals defeated the Consolidation Coal Company, winning three of the four points. The total pin fall went to the No Equals by 10 pins. For the winners Welsh rolled high with a score of 290, rolling 112 for his best single. Linchey was high for the C. C. Co. with a total score of 285. The summary:

No Equals 74, 86, 101—261
Fernald 78, 104, 92—274
Welsh 88, 112, 92—290

CAN MAKE ARMOR CHEAPER THAN THE GOVERNMENT CAN

Bethlehem Steel Company Sends Letter to the Congressmen Explaining Why Proposed U. S. Plant is Unnecessary

Washington, April 19.—In their fight against the passing of the Tillman bill to appropriate \$11,000,000 to build a government armor plant the Bethlehem Steel Company has issued its bulletin number 12, a letter to the members of Congress. The steel company also quotes from the minority report of the House Naval Committee, which report was signed by the following six named members:

Thomas S. Butler, Pennsylvania.
Ernest W. Roberts, Massachusetts.
William Browning, New Jersey.
John R. Fair, Pennsylvania.
Patrick K. Kelly, Michigan.
Sloney E. Mudd, Maryland.

The statement issued by the Bethlehem Steel Company taken from this minority report are:

"Conditions are such in the world that we cannot forecast our future military necessities.

"Whatever we may decide eventually as to the wisdom of taking away from private enterprises the manufacture of armor and other munitions of war, we should not weaken our military situation in any direction at this time or during the years immediately following the close of the present war.

"The naval bill this year will carry an appropriation undoubtedly of more than \$200,000,000.

"This bill appropriates \$11,000,000 for an armor plate factory of 20,000 tons capacity.

"The estimates for this plant were made in 1913.

"Since that time labor and material have advanced in cost approximately forty per cent.

"If this plant is built under present conditions or at any time during the continuance of the war in Europe, it probably will cost the Government \$15,000,000.

"We believe that this money could be spent more wisely at this time on the navy than on the navy armor.

"It seems to us that we are much more in need at the present time of a fighting navy than a manufacturing navy."

The shop cost of producing armor was found by Senator Tillman's Committee to be about \$262 a ton. Those figures represent our own experience. We have offered to reduce our price, not because the present price is too high.

The report in 1906 of the Committee of Naval Officers, headed by Capt. Kassuth Niles, estimated that the manufacture of armor costs ten per cent more for a plant running at only two-thirds capacity, and thirty per cent more when running only one-third capacity.

Senator Tillman's production cost of \$262 a ton, running at full capacity, did not include administrative expenses. It did not allow any interest on the value of plant or working capital. It did not provide for insurance taxes or depreciation. Such items would in one way or another have to be met by the Government, just as much as by a private manufacturer.

The naval estimates call for 24,000 tons of armor per year for the next five years. If we receive orders for 3,000 tons per year, we can run our plant at two-thirds capacity, and reduce our price.

In the next our plant has run at an average of one-third capacity. That is why \$425 has been a low price. If we could have run at two-thirds capacity as is now possible, we could have made a reduction then.

To provide for all items of cost with our plant running at two-thirds capacity, would make the total cost about \$399 a ton. This covers merely shop cost plus the carrying charge on the plant. It covers no allowance for profit.

We offer the reduced price named, or we agree to accept the findings of the Federal Trade Commission as to what a fair charge would be.

It is likely that we would suggest, as we have done, an investigation by the Federal Trade Commission. If we feared their findings would show extortion in the past?

Our situation is easily set forth: We have a plant now built which cost us \$7,000,000. If a Government plant is built, ours is rendered useless and valueless. The whole of our investment will then be sacrificed.

Any return—however small—on the cost of our plant.

Any payment toward taxes, insurance and depreciation—

Any contribution toward the administrative expenses—

Is better than the loss of the whole plant.

"We can make armor cheaper than the Government can do it. We want to save the Government a wasteful expense; we want to save our armor plant from being made valueless because useless."

GERMAN TROOPS DESTROY GREEK R. R. BRIDGES

Crossed Frontier Monday, Salonica
Learns—West Front Bombardment
Continues

Salonica, April 19.—German troops crossed the Greek frontier Monday and destroyed railway bridges between Doiran and Aktadull, according to dispatches received here today.

Paris, April 19.—There was a spirited bombardment of positions south of Haumont wood, on the Verdun front, east of the Meuse, last night, the war office report of this afternoon says. No other important event occurred on any part of the front.

Capturing French Positions
Berlin, April 19.—French positions at Steinbrunn, north of Verdun, have been captured by the Germans, who took 100 prisoners, the war office announced this afternoon.

Northwest of Haumont farm, east of Steinbrunn, a French counter attack was repulsed.

Turkish Official Statement
Berlin, April 19, by wireless to Sayville.—The following official communication was issued by Turkish headquarters under date of April 18:

Irak front: Turkish volunteers demonstrated during the past two nights made surprise attacks upon enemy positions near Sheksaid.

"Caenais front: There have been engagements in the Tchoruk valley and on the Lauristan coast."

Taunton Attack Futile
Petrograd, via London, April 19.—The official communication from general headquarters issued reads:

"In the region of Iskul and the section west of Jacobshadt, an artillery duel took place. Attempts of the enemy to advance in the section near Neverseht farm at Krevs were repulsed by our squads."

"In the section on Sunday with strong forces made desperate attacks on Popayavichola. One of these attacks extended over a front exceeding two verstas (a mile and a third). All the attacks were repulsed with heavy losses to the enemy."

"According to additional particulars our captures in the course of the conquest of Popayavichola on the 13th included an enormous quantity of rifles, arms, cartridges, telephonic material, periscopes, bombs, bomb throwers and culissins."

OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY

Rub pain from back with small trial bottle of old, penetrating "St. Jacob's Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacob's Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

FRENCH SWISS PROTEST AGAINST "PRUSSIANIZATION" OF SWISS ARMY

Zurich, April 19.—The sympathies of the allies in the French speaking cantons of Switzerland continue a violent anti-German agitation. At Lausanne they have just held a mass meeting to protest against the "Prussianization" of the army of the republic.

The meeting passed resolutions demanding the recall of the Swiss officers who are at the different German fronts as neutral observers, and the cancellation of all orders for arms and ammunition placed by the Federal Government in Germany. One of the resolutions says in part:

"There is a growing tendency among our military authorities to use the alleged German efficiency and to make our army more and more like the barbarian hordes of Germany which are defeated throughout the world. This cannot be tolerated if our military system really needs improvement."

The French army must be taken as our model. There is no necessity for buying German guns and shells as we can manufacture them ourselves or get them cheaper and better from France. Our representatives in the Federal Council are requested to demand that the contracts of our army administration with German firms be cancelled at once."

ITALIAN RAILROAD LABORERS STARTED DEMONSTRATION

Police Drive Former B. & M. Workmen Away As Crew was Re-laying Broken Rail at Crossing

Although no arrests were necessary and no actual violence took place, the demonstration made on Wednesday evening by some forty of the eighty or more Italian laborers formerly attached to the section crews of the Boston and Maine railroad at the Vaughan street crossing had a serious aspect for a few minutes. Shortly after 7 o'clock these men gathered at the crossing and crowded about Yard Foreman John Whalen and his little crew of five men and attempted to prevent them from replacing a broken rail at the crossing on the east bound track.

Their demonstration consisted simply of arguments directed towards the two members of the crew who refused to quit work on Tuesday evening when the large number walked out and the three new men added to the crew on Wednesday morning. Officer Schriener considered that they were not within their rights and attempted to disperse them. Before they had an opportunity to do any violence word had been sent to the police station and Assistant Marshal Ducker with Officers Philbrick and Condon arrived on the scene and the crowd was persuaded to go to their homes.

The Boston and Maine railroad officials are taking every precaution against possible labor troubles resulting from the importation of a large number of laborers from Boston and Salem this morning is shown by the fact that several railroad detectives to the crossing, two arriving from Boston last evening just after the Portsmouth

police officers had succeeded in driving the men away from the crossing. Although several of the men who left their work have stated that they were willing to return, awaiting the outcome of the conference now being held over the demands made by the section hands throughout the Portland and Fitchburg divisions, the greater part of them are firm in their stand that they have struck and these are sufficiently strong in numbers to prevent the few willing ones returning to work.

One of the men in Mr. Whalen's crew stated last evening that one of the self styled strikers had threatened "to get him" today if he didn't join with them. He was not able to point out the man to the police and said that he wasn't sure who the man was, although the was quite certain that the threat had been made. The Boston and Maine officials continue in their stand taken on Tuesday evening that these men have not struck but have simply left their jobs. They admit that the demands of the men on the two divisions are being considered but as the Portsmouth crews did not wait for an answer to the demands they felt to see where this action of their can be looked upon as anything resembling a strike.

The number of men who have left the job is now believed to be close to eighty, this number, including the twenty connected with the Portsmouth Electric railroad. The largest part of this number were attached to the crew working under Foreman George Colson and was known as the "apron" crew.

Work for these men has been steady throughout the winter and there is work enough already planned to keep the entire number busy for another year. The work on the new "Y" at Toppingham Junction has been halted but will likely be continued today with the arrival of the new men from Boston.

It is the belief of the police that the agitators in the trouble are among the younger element rather than the seasoned railroad workers. It is also rumored, although without foundation, that the B. & M. leaders have been more or less active among these men for some little time. The Boston and Maine officials, while not wishing to invite trouble are taking every measure at their command to prevent it. The local police authorities stated last evening that no serious trouble was anticipated but it is not likely that they will allow any large number to gather in the vicinity of the railroad premises.

The broken rail at the crossing was discovered by Mr. Whalen early in the evening. It was in a dangerous place as the locomotives on the heavy trains stand there when making the stop at Portsmouth from Boston to Portland. Nothing about the break bore any indications of it being other than an accident which occurs more or less often and the laborers are not connected with it is the belief of any of the town men.

Folly of Health Fads.

At a time when there is so much fussing and fadism over the question of diet such a plain and sensible talk on the subject as was given the other day by Dr. G. P. Stiles before the Harvard Medical School is refreshing and reassuring. He laid down the simple proposition that appetite and experience are the safest guides in the selection of foods and the quantities that should be taken.

This truth has been discovered by many individuals and there are many others who are unconsciously governed by it, never having given any thought whatever to the subject. They eat what they want and as much as they want if they can get it, and enjoy good health without knowing why or stopping to inquire.

But, prompted by the prepared foods men and the health faddists, there are many who have become deeply concerned over the question of diet. They are inquiring into the chemistry of what they eat and endeavoring to preserve their health by living by rule. They deny themselves many things they would like and which would be good for them, and stick to the prescriptions which they have originated or taken from others, with the result that they are not nearly so well off as they would be if they would follow the advice of Dr. Stiles and let appetite and experience be their guides.

There are too many who fail to realize that the natural appetite in most cases calls for just what the body needs. The fact is that the average person is best off when he eats just what he wants. If a person has a fondness for a food that does not agree with him he is the first one to know it, and if he is sensible he will govern himself accordingly. This comes strictly under the rule of being guided by appetite and experience.

The healthiest people are those who pay the least attention to their health, aside from observance of the most simple rules. The avoidance of drafts, wet feet, over-exhaustion, etc., is dictated by common sense, as the selection of the diet should be.

Aside from such simple things the less "rule" there is in living the better for the average person. Very few persons are made healthy by the study of health. It is those whose minds are on other things who are healthiest and strongest and who are doing the largest share toward carrying on the work of the world. Those who feel that they must be governed by some rule in the manner of living may well be guided by appetite and experience so far as diet is concerned, and the exercise of common sense in other matters will complete a program that will be found safe and sane.

The Republicans of Georgia are moving against lynching, so far as this can be done through platform action. At their state convention the other day a plank was incorporated in the platform providing for the payment of \$10,000 to the family of every man lynched and making the sheriff of the county in which the lynching takes place ineligible for re-election. Like many other platform utterances this reads well, but what Georgia needs is an enlightened public sentiment and a disposition to obey the laws already on the statute books. And unfortunately, the lack of these is not confined to Georgia.

Numerous exchanges give evidence that the public is tiring of "tag days," when people are held up in the streets by pretty girls soliciting aid for some cause. The causes are invariably good, but this method of collecting funds is highly disagreeable to many, who consider it nothing more or less than a genteel "hold-up," and now that they are beginning to express their opinions on the subject the chances are that "tag day" is headed toward sundown.

The Harvard commencement is to be held in the stadium this year, all other accommodations for such numbers as desire to attend having been outgrown. But there is no probability that the stadium will be filled as it is by a football game. Furthermore, it is to be hoped that the weather will be favorable.

The baseball season having opened, nothing more should be heard about the ground hog this year.

Whiskytown, Cal., is to change its name to Schilling. It seems as if while about it the people ought to have been willing to make it Ten Cents.

"Weak need protection," says a headline. But one of the troubles in this country is that there is already too much weak-kneed protection.

There ought to be enough preparedness in the navy to prevent the collision of battleships while at practice.

It is about time for the "April showers, May flowers" poets to be pining up.

WILL RESUME INSPECTION

Curator Hammond of N. H. Historical Society to Go to Philadelphia on Business.

Concord, April 20.—Curator Otis Hammond of the New Hampshire Historical Society will go to Philadelphia on May 2, to resume the task of inspecting the New Hampshire documents held up in an auction room by an injunction taken out by Asst. Attorney General Joseph S. Matthews some months ago. Mr. Hammond has been waiting the convenience of the Philadelphiaans who insisted that they should oversee his inspection of the documents and received word to day that they would be ready to proceed by May 2.

The work probably will require a week or ten days and from the first superficial examination made by this state's representatives, it is expected that a considerable proportion of the papers which were found in the effects of a descendant of Jacob Moore of this state, will be claimed as official state papers of New Hampshire.

The Moore estate claims that they were the personal effects of Governor Meshech Weare and came to Mr. Moore rightfully. The state claims the papers were turned over to Moore for compilation and that they were never returned. Some of the papers have a high historical value.

FIRE PREVENTION DON'T'S

The Bureau of Fire Prevention of the New York fire department has issued the following bulletin which will be of interest to all:

- Don't allow children to play with matches.
- Don't throw away lighted matches, cigars or cigarettes.
- Don't go into dark closets, bed rooms or cellars using matches or candles to light your way.
- Don't use kerosene, benzine or naphtha in lighting fires, or to quicken a slow fire—it may result in death.
- Don't use gasoline, benzine, or naphtha to clean clothing near an open flame, light or fire.
- Don't use alcohol lamps, especially if made of glass, they often break and the fluid is ignited at once.
- Don't fill any lamp with gasoline, kerosene or other oil while the lamp is lighted. Keep the burners of all lamps thoroughly clean.
- Don't fill kerosene lamps after dark or within fifteen feet of the lights or fire.
- Don't put ashes in wooden boxes or barrels.
- Don't accumulate rubbish in premises, cellars or workshops.
- Don't accumulate old beds and bedding or other trash in the cellars.
- Don't have storage closets under the stairs, ways, fires in these places cut off your main exit.
- Don't neglect to have the chimney flue cleaned once a year.
- Don't have lace curtains in the vicinity of gas jets.
- Don't let kitchen slaves close to wood work. Put a metal shield behind the stove.
- Don't fail to have a chemical fire extinguisher in your home.

PENSION FOR VETERAN SCHOOL TEACHER

Miss Annie M. Osgood of London, who commenced teaching in that town in 1818, when but fifteen years of age

and taught without interruption until 1881, has been given a certificate for a teacher's pension by the State Department of Public Instruction.

Miss Osgood was one of the most successful teachers in New Hampshire as shown by the fact that she taught for ten years in her home town, and for twelve consecutive years held the position of principal of the grammar school at Franklin.

She also taught at Lakeport three years, Pittsfield and Canterbury two years each, and at Concord, Salisbury and Newmarket one year each.

She is in good health and passing the winter and spring months at Lawrence, Mass.

RUSSIA HARD UP FOR SUGAR AND BUTTER

London, April 22.—A British business man writing to a London newspaper from Copenhagen says:

"A journey to Petrograd in war time is one which is full of more or less trying experiences.

"The train leaving Stockholm at night follows the coast to the northern end of the bay of Bollnäs as far as Kungälv, Sweden, close to the frontier river, Torneä, and the journey occupies two nights and the intervening day.

"From Haparanda you are driven in sledges with your luggage across the frozen river and about fifteen minutes later you reach Torneä. It is here, at the closed gates to Finland, that the formalities begin. You give up your passports and enter the Finland Custom house, the doors of which are kept locked and barred during the whole time the traveler is under examination.

The whole system is repeated when you leave Finland and enter Russia at Bjelo-Ostrov. You are not allowed to take more than \$25 in cash in or out of Finland, and your money is counted when you enter the country and when you leave it to pass into Russia as well as when you return to Finland.

The restaurants in Finland are excellent with the exception of sugar, of which you are only served with three lumps, you do not notice any scarcity of food. You can get wine and beer but at 50 cents and a bottle of champagne for about \$15.

You are due to arrive in Petrograd at 10 p. m. but it is often midnight or later when the train steams in. The traveling is comfortable, but from the moment you pass from Finland into Russia you are entirely without alcohol. There are, however, numerous non-alcoholic fruit wines, a special fruit champagne approaching in taste a fairly good Italian Asil costing \$12 a bottle. There is also a popular beverage called Kvass, one of the numerous ingredients of which is ground bread. It is cheap and most nourishing, but has not yet supplanted weak tea in timbers with slices of lemon.

The hotels in Russia are greatly overcrowded by refugees from Poland and the other war zones and the wise traveler is he who engages his rooms at least a week beforehand and if possible through friends. In Petrograd it is more apparent than it is in Finland that the supply of food as well as of fuel is irregular and in many cases insufficient.

This is mostly due to the lack of railways as there is plenty of food in this enormous country, but the difficulties in the way of transporting it from the often remote places seem to be almost insurmountable.

As in Finland, sugar is extremely scarce in Petrograd, and in arranging for board in your lodging a great reduction is made in the price if the boarder undertakes to do without sugar or provide it himself. I attempted this latter scheme, but after spending several days in searching all the grocery shops in the neighborhood, I learned that sugar was only obtainable at one particular place at the far end of the city, and then only during two or three fixed hours every day. When I did find the place, I could only buy a single pound at a time.

Butter is also scarce. Very quantities are made in Siberia, but it is all bought up by the government for the use of the troops. After these have been supplied the balance goes to the several municipalities without following any special rules or system, and here again the enormous distances in this remarkable country make it difficult to organize regular supplies.

NO ACTION ON PRESIDENT

Dartmouth College Trustees Not Ready to Choose New Head.

Hanover, N. H., April 20.—The quarterly meeting of the trustees of Dartmouth college will be held here Friday and Saturday, being preceded by a dinner tomorrow night, at which members of the faculty will meet with the trustees. The annual graduation exercises of the Thayer school of Civil Engineering and the Tuck school of Administration and Finance take place tomorrow night.

The official statement is made by the college that no announcement as to the presidency of Dartmouth will be made and no final action in the matter will be taken at this meeting of the trustees.

No procedure looking to final action will be undertaken until the mind of the alumni has had ample opportunity to express itself.

PRESIDENT WILL ATTEND GAME

Wilson to See the Yankees and Nationals at Washington.

(Special to The Herald)

Washington, April 20.—President Wilson plans to attend the opening baseball game of the season here this afternoon when the Yankees meet the Nationals. It was announced at first that he would not attend owing to an appointment at 5.30 to receive the daughters of the American Revolution. Later it was stated that he would attend the ball game, leaving early. Mrs. Wilson will go with him.

RAILROAD NOTES

No notice of an increase in the pay of freight handlers has been received in Concord. But inasmuch as the Nashua freight handlers have been granted an additional 25 cents a day, it is expected the same will hold true at Concord.

The Nashua increase makes the minimum there \$1.25 a day.
A Portland to Ayer freight, passing through Dover on Wednesday, was stopped on the bridge over the Cocheco river on account of the high wind which had loosened a car roof from its fastenings. Nearly eight feet of the roof was blown off before trainmen observed the fact and controlling the train to a standstill while they and railroad carpenters temporarily repaired the roof. The trainmen were just descending from the car-tops after passing through the yard when they detected the loose boards which would have probably caused the complete unroofing of the car had the train passed through the arch a few rods away.

No notice of an increase in the pay of freight handlers has been received in Concord. But inasmuch as the Nashua freight handlers have been granted an additional 25 cents a day, it is expected the same will hold true at Concord.

PEOPLES' OPINION

Good Friday.

Editor—I am very glad to note that some, and possibly all, of the stores of Portsmouth are to close on Good Friday from 12 to 3, in loving memory of Jesus Christ, who did so much for us. It is a good sign of the times, and shows that the city is wide-awake and religious. I hope the public schools will close for the day, or at least for the afternoon, thus allowing the boys and girls of the city to rightly honor their King. Massachusetts, Connecticut, New York City and Chicago are some of the places where the schools are closed on Good Friday, and so it is not simply a local affair.

Very sincerely,
D. R. FAY.

TOOK IN \$4850 FOR NEW LICENSES

Tuesday was a busy day in the motor vehicle department at Concord. In fact it was the busiest in the history of that office.

Commissioner Willis handed out receipts for licenses amounting to \$4850. Tuesday of last week he took in \$4500, which established a new record to offset that of April 18. Over \$6000 licenses for the year have so far been issued.

KITTERY

Weather permitting, members of the Salvation Army in Portsmouth will hold a short open air service near the postoffice in Kittery previous to the service at the Government Street Methodist church on Good Friday evening at 7.30.

THAW GRANTED DIVORCE

MILLIONS SPENT ON PLOT

Germans Sought to Stir Up a Revolution in India Against British.

(Special to The Herald)

London, April 20.—Discovery of a German plot to stir up a revolution in India, was responsible for the seizure of a British warship of a number of Germans and Austrians from the American steamer China in Far Eastern waters. It was learned at the Admiralty office today. The prisoners include German and Austrian officers from ships interned in Chinese ports. All had false passports. It is stated, and were on their way to India to stir up revolts. According to high British naval officers, millions of dollars have been spent on the plot which is declared to be still in progress. Arms and ammunition are being sent from America for the Germans in China, for re-shipment to India.

N. H. COLLEGE MAN MARRIED

Classmates of Capt. P. S. Ward Surprised by Announcement.

Durham, N. H., April 20.—It was learned Wednesday that P. S. Ward, captain of the New Hampshire college track team, was married April 8 at Wolfboro, N. H., to Miss Dorothy Atwood of New York. The announcement is a complete surprise to his college mates.

Ward is the best track athlete New Hampshire ever had. For three years he had been on the varsity team. He holds the 100-yard, 220-yard and quarter mile records. He is credited with ten seconds for the century dash. He is a member of the glee club, is college football, has been manager of class football and class track teams and last year was sporting editor of "The New Hampshire." He is a member of the Kappa Sigma Fraternity and also the honorary college societies, Casque and Carvel and the Senior Skulls. Ward will be graduated in June.

The new baseball team at the navy yard got into practice on Wednesday in its first game of the season against a picked team from Portsmouth. In the eight innings, the manager of the navy team tried out no less than 26 men, including four pitchers. The battery work of Horn and Bailey for Portsmouth was classy and the navy team was defeated by a score of 4 to 3. The Portsmouth team was obliged to go along some and the eight innings were all fast on the part of both teams.

A large paint manufacturer asked this question of retailers throughout the country:

NO. 3 SAID:
"I believe that advertising in the local paper brings new customers into my store and that it keeps the old ones trading here. I do not trace any per cent. of sales directly to this kind of advertising. I know that everything that I put in the paper is read, as I have the people tell me about it. FORD WINS IN PRIMARIES

W. J. Bryan Defeated at Election in Home State.

Omaha, Neb., April 20.—Henry Ford of Detroit, without an effort and without an organization, captured the Nebraska delegation to the Republican national convention in Tuesday's primaries over Senator Cummings, Charles E. Hughes and Henry D. Patabrook. The total vote has not been counted, but Cummings and Hughes headquarters both concede Ford's victory. Equally as great a surprise as the Ford vote, is the defeat of William J. Bryan for national committeeman, his brother, C. W. Bryan for Governor, and the entire Bryan ticket were also defeated. On the face of the returns so far received, W. J. Bryan is sixth in the race for delegates-at-large, four of whom will be chosen.

THINK NOTE MEANS WAR

British People Are of Opinion That U. S. and Germany Will Break.

(Special to The Herald)

London, April 20.—British opinion is practically unanimous that the ultimatum of President Wilson means war between the United States and the central empires. The press asserts that a rupture of diplomatic relations between Germany and America is certain and that Austria will also be involved in the break.

"It is difficult," says the Chronicle, "to assume that the German government, elated by its submarine successes of the past six weeks, will accept President Wilson's terms. Diplomatic relations will then be broken off, resulting in a situation which may easily develop into war if Germany persists fresh atrocities of which American citizens are victims." If the Kaiser decides that a continuance of submarine warfare is worth a breach with America, he probably will decide it is worth a war, too. If he desires to avoid war, he would naturally make his concessions at a stage when it would also avert the breaking of relations.

SEIZED AS DRUNK ADMITS MURDER OF NINE YEARS AGO

ARRAIGNED IN PAWTUCKET, MAN CONFESSES HE KILLED BROTHER-IN-LAW IN NEW YORK

Pawtucket, April 19.—After nine years of wandering about the country, Michael V. Donnelly, who has been arraigned in police court here today on a charge of drunkenness, admitted his identity and confessed to the killing of his brother-in-law, William Ross, in New York nine years ago.

On April 2, 1907, at 4.15 p. m., M. V. Donnelly met his brother-in-law, William Ross, a street sweeper at Seventy-sixth street and First avenue, New York, and fired two shots at him, one of which entered his temple and killed him instantly.

The shooting was said to have been the result of treatment that he and his sister had received at the hands of Ross.

Ross' wife, who was Donnelly's sister, had complained to her brother of having been beaten by her husband. After the murder, Donnelly fled from New York. His admission of his identity and the deed followed the imposition of a fine today for drunkenness. Detective Sergeant Cornelius W. Williams has been sent on from New York to take him back to that city for trial.

BOSTON LETTER

On the assumption that it would save Boston about \$700,000 annually, and the United States about \$100,000,000 a year, an attempt is being made to revivify the proposition advocated several years ago by the National Daylight Association of Cincinnati to lengthen the time of day by advancing all clocks in the United States one hour. The proposal is to have the government officials at Washington at midnight on an agreed time order all clocks pushed one hour forward, and thus increase the day by 60 minutes, giving the people an additional hour for recreation and save one hour at night in the consumption of light, fuel, etc. An enthusiast of the plan is Gorham Dana, the insurance expert. Giving statistics, he said that on the basis that a family of five would save fourteen cents a week in the cost of light should the time be extended one hour, it would mean a saving of \$700,000 and on the same basis the saving to the United States would be in the neighborhood of \$100,000,000 a year.

The excellent performance of the officers of the Metropolitan Police in the target practice, which has just come to a close at the South Armory, has started anew the discussion, begun a year ago concerning the lack of such training in the Boston police department and the poor condition of the revolvers used by the patrol.

men in the streets. In ten years there has not been an instance of target practice in the department. Since that time the revolvers carried by the men in the street are said to have been all of the old type, with no automatics among them, such as the Metropolitan police use. Target practice lapsed about the time that Police Commissioner O'Meara took office. No explanation has ever been given as to the reason for the discontinuance of this department of the police work. In the Boston police department today there are more than 1500 men, and all are equipped with .38 calibre revolvers. It is said that a large number of the revolvers are rusty. It is said also that few of the officers know how to handle revolvers so as to get the best use out of them.

Representative George Louis Richards of Malden, who is vice chairman of the Boston Sunday Evangelistic committee received the following telegram from Rev. William A. Sunday: "Baltimore, Md., April 15, 1918. Rep. George Louis Richards, care of State House, Boston.—Will you please convey to the senate and to the house my heartfelt gratitude for passing the speech bill for the erection of the wooden tabernacle in Boston? I feel certain that when they see the great moral uplift which will come not only to Boston, but to all New England—honesty made happier, lives made brighter, and all lifted nearer God—I will never regret passing the bill. I only hope that I may have the pleasure of taking each man by the hand and thanking him personally." (Signed) W. A. Sunday.

Governor McCall has signed the bill federalizing the state militia and turning over the armories and other property to the use of the national government. Adj. General Charles H. Cole, armed with the fact that this bill was now law, went to Washington to assist in the passage of the Chamberlain army bill, now pending. The transfer of the company units is dependent on a vote to be taken by the men themselves. The armories are still retained for use by the state other than military.

NEW YORK REVIVES CUSTOM OF SELLING SHIPS AT AUCTION.

New York, April 19.—Hannover and Johnson, ship brokers, will introduce to New York today on the floor of the Maritime Exchange the old European custom of selling ships by auction. They have already four vessels for disposal and expect to have more.

Almost any kind of a seagoing vessel in good condition will bring a high price on the waterfront of the demand for them and the phenomenal highness of freight rates. In some recent sales steamships have brought more than twice their original cost.

The sales have been advertised in all parts of the country and cablegrams will be sent to foreign agents offering to handle any ships they may wish to sell.

Ships for sale that may be in port will be open to inspection prior to the auction. The ships will be knocked down to the highest responsible bidder, with the understanding that the ship may be withdrawn if the price is unsatisfactory to the owner.

gro boy scouts here. The son of a negro doctor has taken up the matter of organizing the negro boys and the scouts declare that if the national organization grants the negroes a charter they will withdraw. Agitation has been started looking to the organization of the "Southern Boy Scouts" with headquarters here, to embrace all the southern states. In the event a charter is granted the negroes, men of influence and wealth, will probably give their support to the new southern organization.

RUSSIANS DRUNK WHEN THE EMDEN, ATTACKED.

Petrograd, April 19.—The Russian admiralty has finally published a report of the trial of Capt. Tcherkassov, who was sentenced to 3 1/2 years imprisonment and dismissed from the navy after the destruction of his ship, the cruiser Shenkuch, by the famous German raider Emden in the harbor of Penang, Malay Straits Settlements.

At the trial of the captain and three other officers it was proved that the commander of the ship and his officers had been on shore for several days when the attack came. Of the fourteen boilers of the ship only one was under steam. The torpedo tubes were not charged, the guns on the deck had no guards and at night the cruiser was brilliantly lighted from bow to stern, although it was known that the Emden was somewhere in the neighborhood.

While the officers were enjoying themselves on land, the crew brought a number of Japanese women and large quantities of whiskey on board. Whirligigs took place and when the Shenkuch was attacked early in the morning of October 29, 1914, many men on the vessel were drunk.

OHIO STANDARD OIL COMPANY TO DOUBLE ITS STOCK

Cleveland, O., April 19.—Stockholders of the Standard Oil Company of Ohio have been called to a special meeting May 25 for the purpose of increasing the company's capital stock from \$3,500,000 to \$7,000,000. The increase is to be distributed in the form of a 100 per cent stock dividend.

This company is one of the disinterested subsidiaries of the Standard Oil Company of New Jersey, and is engaged in the refining and marketing business, owning two plants at Cleveland, one of about 100 acres, and the other of 40 acres. Its marketing stations are throughout the state.

In 1906 its profits amounted to \$1,000,520 and on Oct. 16, 1914, the Ohio supreme court dismissed the suit of George H. Phelps, an independent oil producer of Findley, to oust the company and three other Standard Oil companies from Ohio on the grounds that they were an illegal combination and fraud.

Dividends totaling 24 per cent were distributed by the Standard Oil Company of Ohio in 1914, consisting of quarterly payments of 3 per cent and 3 per cent extra. In 1913 quarterly dividends of 4 per cent and 2 per cent extra were distributed, totaling 20 per cent for the year. On Dec. 16, 1912, a 5 per cent dividend was declared. Prior to the disintegration the dividends reported amounted to 3 per cent each in 1903 and 1906.

ARBOR DAY MAY 12TH

Gov. Spaulding Urges Tree Planting and Forest Preservation.

Governor Holland H. Spaulding has issued the following proclamation for Arbor Day:

An auspicious omen for the future of our state and nation is the increasing intelligent interest taken by our people in the conservation of natural resources. New Hampshire, greatly blessed with the water-power which is the basis of so much of our material wealth and with the wonderful scenic beauties which have won world-wide admiration, should be as she is, in the forefront of the movement for forest preservation and perpetuation. With the desire and the hope that the occasion may be generally and usefully observed, I hereby proclaim Friday, May 12, as Arbor Day. Let every good citizen, who can do so, plant a tree or many trees, upon that day. Let the schools, the boards of trade, the village improvement societies and other kindred agencies hold meetings of education and inspiration. And let every one of us take personal thought for the future welfare of New Hampshire's splendid heritage from Nature.

Given at the Council Chamber in Concord this fourteenth day of April, in the year of Our Lord, one thousand nine hundred and sixteen, and of the Independence of the United States of America, the one hundred and fortieth.

HOLLAND H. SPAULDING,
Governor.
By His Excellency the Governor, with advice of the Council,
EDWIN C. DEAN,
Secretary of State.

CAN'T FIND DANDRUFF

Every bit of dandruff disappears after one or two applications of Dandergin rubbed well into the scalp with the finger tips. Get a 25-cent bottle of Dandergin at any drug store and save your hair. After a few applications you can't find a particle of dandruff or any falling hair, and the scalp will never itch.

BREAK A CHILD'S COLD BY GIVING SYRUP OF FIGS

Cleanses the little liver and bowels and they get well quick.

When your child suffers from a cold don't wait, give him little stomach, liver and bowels a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally, if breath is bad, stomach sour, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

If your child coughs, snuffles and has a cold or is feverish or has a sore throat give a good dose of "California Syrup of Figs" to evacuate the bowels, no difference what other treatment is given.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company."

IN THE MAY DELINEATOR

Now on sale at The D. F. Borthwick Store.

Quaint and girlish, designs 8397 and 8403 illustrate one of the most attractive types of draped frocks for evening wear.

THE LAST DAYS OF SCHOOL.

Flounced frocks are especially becoming to the young girl, and design 8354 is particularly adapted to soft, dainty materials.

BEGINNING LESSONS IN DRESSMAKING.

The use of the pattern—Take your pattern out of the envelope, unfold the pieces and spread them out. It will seem very simple to you after the complicated jig-saw puzzles of a few years ago. Each piece is numbered, and on the back of the pattern envelope you will find its picture clearly named, so that you'll know just what it is.

YOU AND YOUR NEEDLE.

M'REEL PURCHASES - LANGLEY FLEET

Exeter Man Now Controls Coal Shipments Up the River.

The river fleet of Edward Langley of Durham, comprising five barges and two tug boats, has been sold to E. A. McReel of Exeter. The fleet has for several years been engaged in the coal transportation from Portsmouth to up-river towns. Another steamer lately purchased in Portland has been added to the fleet to take the place of one of the older boats formerly owned by Langley.

OBSEQUIES

Augustus Stevenson

The funeral of Augustus Stevenson was held from his late home at North Kittery, Wednesday afternoon at 2 o'clock, Dr. J. P. Frost, D. D., of Portland, Me., conducting the services assisted by Rev. H. G. McCall of the First Methodist church, North Kittery.

The Masonic Quartet of this city rendered the following selections: "Lead Kindly Light," "Shall We Meet Beyond the River," and "Still, Still, With Thee."

Naval Lodge, A. F. and A. M. of Kittery conducted the Masonic burial services. Members of Naval Lodge acted as body bearers. The honorary pallbearers were Charles A. Wendell, Thomas F. Flanagan, Charles Drake, Fred Maby, Walter Ball, Charles Dixon, Frank Nugen, Lake Ashworth, Samuel D. Gibekey, James Boyle, Frank L. Wanser and Nathan Whalley, all heads of departments at the navy yard.

Interment was in the family lot under the direction of Undertaker A. T. Parker.

Mrs. Eva L. Shannon

A prayer service was held over the remains of Mrs. Eva L. Shannon at the home of her sister, Mrs. Mattie Griffin, 302 Irving street, on Wednesday afternoon at 2.30 o'clock. Rev. Percy W. Newell officiating. The body was sent to Haverhill, Mass. Thursday morning for further services and interment under the direction of Undertaker H. W. Nickerson.

A QUIET HOME WEDDING

Miss C. Winnifred Winslow Becomes the Bride of J. True Davis.

A very quiet home wedding occurred at 6.30 o'clock on Wednesday afternoon when Miss Clara Winnifred Winslow, daughter of Charles T. and the late Jennie Winslow, was united in marriage to John True Davis, the well known wholesale produce merchant of this city. The ceremony was performed by Rev. P. J. Scott, pastor of the Miller Avenue Methodist church in the presence of a few relatives at the home of the bride's father, 86 Irvington street, the single ring service being used. The couple were unattended.

The room was prettily decorated in green and yellow, with pine boughs, palms and juncos. The bride was handsomely attired in a gown of white embroidered tulle and carried a shower bouquet of pink roses. The wedding march was played by Miss Merle Davis, daughter of the groom.

Following the ceremony, a reception was held with the following in the receiving line: Mr. Charles T. Winslow, Miss Anna Winslow and Mrs. A. D. Clifford, father, sister and aunt of the bride, respectively.

The out of town guests at the wedding were: Dr. Everett Flood and son Everett David Flood, Jr., of Amherst, Mass.; Mrs. W. T. Reed of North Kittery, Conn.; Miss Clara Tuttle of Beverly, Mass.; Mr. and Mrs. E. L. Currier and son Maurice, Mr. and Mrs. Newell Shaw, Mr. and Mrs. S. A. Kingsbury and Mr. and Mrs. A. B. Snow, all of Dover.

The bridal couple left on an evening train on a wedding trip, their destination being kept secret. Upon their return they will reside at 350 Broad street.

The bride is a graduate of Woods-ville High school and of Plymouth Normal school. For the past year and a half she has taught in the Haven school in this city, but previously taught in Montana and at Beverly, Mass.

THE HERALD HEARS

That the Prevention of Cruelty to Animals Society is doing good work in protesting against the purchase of young chicks for Easter presents for children.

That this act should be wiped out forever.

That the people who raise young fowl should refuse to sell them for any such purpose.

That Jim French, the dean of the New Hampshire legislature, is handing out some political dope these days.

That Jim says Cy Salloway is in congress for life.

That the price tag on the wife's Easter bonnet makes some men rue their wedding day.

That it is time to take up the matter of street repairing if any is to be made in this city.

That it looked all one time on Wednesday night as if the police might run into some trouble at the railroad station.

That the Dover central fire station is to have some improvements for drying hose.

That a chemical fire extinguisher

should be in a handy place in every home.

That the Easter cards of 1916 are of a handsome design.

That the L. B. A. G. will do things at Music hall on Monday evening next.

That the boys promise a good, snappy local show.

B. & M. WILL HAVE BASEBALL TEAM

Prospects for Fast Team Among Local Railroad Men.

The Boston and Maine railroad will be represented with a baseball team from Portsmouth this season, which will be made up of clerks, freight shed men and yard employees and there are prospects of a pretty speedy team. It has been many years since the Boston and Maine men in Portsmouth have been seen on the diamond.

The good material from which a fine can be picked has lead to a team which will go after other railroad clubs during the season. The Portsmouth team already has two fast men for pitching, John Madden, formerly of the Sunset league and Norman Chick who did fine work for the York Beach team.

The first practice game was played on the South playgrounds on Wednesday afternoon with the Wilder Shoe Company as opponents. The railroad team met defeat by a score of 7 to 2.

LITTLE BOWERY TICKET SALE.

The sale of tickets for the Little Bowery Minstrel show, for Monday evening will begin on Thursday evening at the box office of the Portsmouth Theatre. The box office will be open from 7.00 to 8.30 o'clock on Thursday, Friday and Saturday evenings. Prices for seats on the floor, 50 cents. First four rows, 75 cents.

EXTRA SPECIAL

Ensign Mrs. T. W. Malpass of the Boston Salvation Army Headquarters will pay a return visit to the local Corps on State street this week-end. Mrs. Malpass will be accompanied by her son, the able trombone player, who will play at the meetings Saturday and Sunday at 8.16 and 7.30 p. m.

SPANISH SHIPS MAY VISIT PORTSMOUTH

In Recognition of the Honors Paid the Dead Prisoners of War.

The recent ceremonies at the navy yard in which the navy department honored the dead Spanish prisoners of war will go down as a lasting impression with the government of Spain. In recognition of the military honors to the dead heroes of Corvera's fleet and the many other demonstrations of kindly feeling toward Spain on the occasion of the visit of the Spanish navy transport, it is most likely that Spain will, during the coming summer, order one or more of the best ships of its navy to visit Portsmouth. Such is the belief of American navy officers and if the ships do come, Portsmouth will keep up her good record by arranging a celebration in honor of the occasion. Let us hope that the Spanish government will favor us, not with one ship, but with a squadron.

YOUNG ROVERS WIN 8-6.

The Young Rovers A. C. defeated the Young Creek A. C. Thursday morning at the Abnashua field. The stars for the Rovers A. C. were Cullinan, Langdon, Reardon and Loneragan. The lineup was as follows:

The Hardman

THE PIANO THAT GIVES PERENNIAL SATISFACTION

This is an interesting fact about the Hardman Piano. Run your eye over the lists of used and exchanged pianos offered every now and then for sale at reduced prices. You will notice that the Hardman is conspicuously by its absence. A hundred or more different manufacturers are constantly represented in the lists in the course of the year, but rarely found is the name of Hardman.

This can mean only one thing: The people who have bought the Seventy Thousand Hardman Pianos are so thoroughly satisfied with them that they desire no change. Even when they decide to replace their piano by a Player Piano, they still want a Hardman. So they come to us and exchange their valued old friend for a Hardman Autotone.

That word "friend" sums up the whole situation. The Hardman is the Piano of the Home. Almost from the moment of its arrival in the household it is regarded by each member of it not as a mere musical instrument but as a real, living, intimate friend.

It is this that should influence you when you are making up your mind as to what piano you are going to buy. These facts you will find well worth remembering.

Terms arranged to suit your convenience. Liberal allowance for instruments taken in exchange. Write for handsomely illustrated catalogue.
